Flying Tigers,

Our final regular meeting of the season will be Tuesday March 7th. at Kozmo's. Please attend this meeting so we can review and discuss the events of this past season.

Please reserve Saturday May 13th. for our Spring Party. We will meet at 5:00 for social hour with our meal at 6:00 PM. This meal will be catered by the same company we used last year. This event will be held at the car museum which is located at 2901 Perry Dr. SW Canton, OH 44706.

Finally, as we approach the end of our riding season now is the time to prepare your equipment for storage. Fix or remove the items that need to be replaced prior to placing your equipment into storage. Take some time to go through the chassis on your sled and remove the worn items that steal horsepower or could possibly strand you on the trail. Hit the grease fittings on your sled and force the dirt and moisture from areas where it will cause corrosion. At the very least grease the bearing on the drive shaft to insure dirt and water are pushed out.

Remove any fuel that has ethanol in it and replace it with ethanol - free/recreational fuel with preservative. It's is also a good idea to fog the cylinder to protect it during storage.

Please refer to the club web site <http://flyingtigerssnowmobileclub.org/> for news and information about club activities.

MSA Events for 2017

3/31 ~Trails officially close for the season.
